Fires

You'll warm to the realism of the "FocusFlame" and the way it creates the ambience of a real fire.

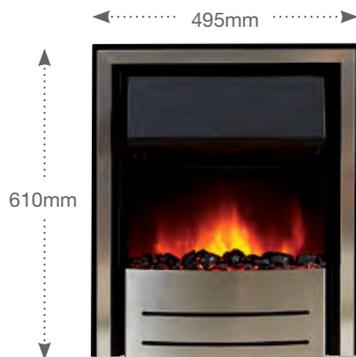

With up to 2kw of heat available at the flick of a switch it's a strong performer too.

The manual controls are positioned under the canopy.

Needing only a 76mm recess the fire can be installed in any of the fireplaces featured in this brochure and in many other applications as well.

Where no recess exists, an extra 'spacer' can be supplied allowing it to fit flat to a wall or fireplace.

Connection is easy as the fire comes complete with a generous two-metre kettle lead.

Solid Oak fireplaces are produced using first quality kiln-dried American Oak and can be finished in Waxed, Light, Light/Medium, Medium, Medium/Dark, Grey Wash and Teak.

Solid Timber Mahogany finish refers to surrounds made from timber similar in appearance to Mahogany.

High quality veneers such as **Oak, American Black Walnut** and **Khaya**, bonded onto premium quality medium density fibreboard, are used wherever veneer is an option.

White, Antique White, Soft Cream, various Greys, Bianca, Vanilla, Tuscany, Spice and **Midnight** are painted finishes applied onto full fireplaces or backs and hearths made from high quality medium density fibreboard.

In addition to the range of electric fires and fireplaces shown in this brochure, Focus Fireplaces also supply a large range of other products.

- A stunning choice of over 100 fire surrounds designed for gas, solid fuel and electric
- Contemporary fireplaces for large modern electric fires
- Furniture ranges created specifically to complement many of the fireplaces
- Beams, shelves and surrounds to fit over stoves
- Roof beam covers

Ask your retailer for the brochures on these other products.
